# KRISHNA BURRA

**Flutter Lead | Senior Flutter Developer**

Bangalore, India | +91 7987476368 | kburra739@gmail.com

## PROFESSIONAL SUMMARY

Lead Flutter Developer with 7+ years of software development experience, including 5+ years specializing in Flutter mobile and web application development across fintech, healthcare, and enterprise products. Experienced in leading frontend teams, managing development activities, mentoring developers, conducting code reviews, and ensuring timely delivery of high-quality applications. Strong hands-on expertise in Flutter, Dart, REST APIs, Firebase, and third-party integrations, with experience taking features from requirements and development through testing, release, and production support. Skilled in collaborating with product, backend, QA, and business teams to translate requirements into scalable, user-focused solutions. Proven ability to take ownership of critical modules, coordinate team deliverables, resolve technical challenges, and drive projects successfully from development to production.

## CORE SKILLS

- **Languages:** Dart, Java
- **Flutter & Mobile:** Flutter (iOS/Android/Web), Flutter l10n & Localization, GenUI & Dynamic UI, Offline-First Development, Push Notifications, Deep Linking, Dynamic Forms, Data Visualization, Role-Based Access Control
- **Backend & Cloud:** RESTful API Integration, Firebase (Firestore, Authentication, Cloud Messaging), Google Cloud Platform (GCP), AWS API Gateway, Gemini API, Retrieval-Augmented Generation (RAG) – Basic Knowledge
- **Leadership & Engineering:** Team Leadership & Handling, Developer Mentoring, Code Reviews, Technical Ownership, Requirements Analysis, Agile/Scrum, Git Branching & Release Strategy, Environment/Flavor Management
- **Release & Deployment:** Android, iOS & Web Production Releases, Google Play Store, Apple App Store, Web Deployment, Demo/Pre-Prod/Prod Environment Management
- **Tools:** Android Studio, VS Code, Cursor, GitHub Copilot, GitHub, Bitbucket

## PROFESSIONAL EXPERIENCE

### SmartQ (Bottle-Lab Technologies Pvt. Ltd.)

***Senior Software Engineer-I*** | *Bangalore, India* | *Dec 2024 – Present*

- Led Flutter development across mobile and web, taking ownership of technical implementation, development planning, code quality, and delivery of key product modules.
- Handled and supported the frontend team by assigning development tasks, mentoring engineers, reviewing code, and helping resolve technical blockers.
- Built **SQ Lens**, a cross-platform Flutter compliance, hygiene, and kitchen-safety application from scratch within 3 months, contributing to its launch across 4 countries and earning the Emerging Leader Award at the quarterly townhall.
- Drove technical direction for the Flutter application and established development practices for maintainability, scalability, and consistent delivery.
- Designed and implemented **GenUI**, enabling dynamic and configurable screens based on API-driven responses.
- Delivered features including push notifications, deep linking, interactive charts and graphs, dynamic forms, localization, and role-based access control.
- Improved offline functionality to support reliable operation in low or no-connectivity environments.
- Managed Demo, Pre-Prod, and Production environments along with Git branching and release workflows to maintain controlled deployments.
- Independently handled production releases across Android, iOS, and Web, including build preparation, deployment, release coordination, and post-release support.
- Designed and implemented a configurable, multi-level **Check Approval Flow**, allowing admins and super users to define approval hierarchies dynamically per checklist.
- Integrated profile-based page access and permissions across the user-facing app and admin portal, and built **Business Layers** (global Client and Sector entities) to support scalable business data management.
- Revamped Checklist Management and User Management to support profile-based, Business Layer-based, and individual site-level access control.

- Supported production issues and high-priority fixes while coordinating with backend, QA, product, and business teams to ensure timely resolution.
- Consistently delivered features on or ahead of schedule while mentoring newer engineers on Flutter development, debugging, and codebase practices.

### Muthoot Group (Emsyne Technologies & Muthoot Finance Pvt. Ltd.)

***Flutter Developer*** | *Bangalore, India* | *Jul 2022 – Dec 2024*

- Owned requirements gathering and the complete project lifecycle, including UAT, for multiple Flutter applications serving both customers and internal teams.
- Integrated Firebase and MySQL databases across projects and managed regular deployments and post-release bug fixes.
- Built **Muthoot Ready Money** (Flutter mobile app) enabling customers to apply for personal loans, with integrated PAN and Aadhaar verification and an SME business loan application form.
- Built **Muthoot Ready Money Web** (Flutter web app), a call-center panel supporting lead assignment, admin views, report downloads, and document handling.
- Developed **Muthoot Smart Bank** (Flutter app) for internal branch use, including customer verification checks via API integrations.
- Built **Aadhyayna** (Flutter app), an employee training platform with API-driven, day-wise training modules.

### CareMother Pvt. Ltd.

***Flutter Developer*** | *Mumbai, India* | *Aug 2021 – Jun 2022*

- Owned requirements gathering, end-to-end development, and deployment for Flutter and native Android applications integrated with Firebase Firestore, including unit testing and production releases.
- Built **Fetosense** (Flutter), an app for conducting NST/CTG tests on pregnant mothers using portable devices, storing results in Firebase and generating clinical reports.
- Built **Mother's App** (Flutter), enabling mothers to self-test their baby's heart rate via a connected CTG device and play back recorded heartbeats.
- Built **Anandimaa** (Android), a maternal health tracking app used by ASHA workers and NGOs to monitor maternal health and a baby's first 1,000 days.

### IBM India Pvt. Ltd.

***Application Developer*** | *Bangalore & Kolkata, India* | *Apr 2019 – Feb 2021*

- Completed 4 months of technical training in Bangalore before joining the Nestlé account in Kolkata for application support.
- Resolved production incidents and coordinated with cross-functional teams to maintain application stability.
- Provided merchant support via calls, emails, and ticketing systems, ensuring smooth day-to-day operations.

## EDUCATION

Bachelor of Engineering, Computer Science — Lakshmi Narain College of Technology, Indore (RGPV) | 2014 – 2018

## ACHIEVEMENTS & CERTIFICATIONS

- Emerging Leader Award — SmartQ Quarterly Townhall (2025), for delivering SQ Lens from scratch and driving its technical direction.
- Smart India Hackathon — Developed a project for the Ministry of Rural Development; selected for the Grand Finale.
- Best Student Award, Higher Secondary Education; 2nd Prize, District-Level Quiz Competition.

## EARLY CAREER

- SM Multimedia — Android Developer, Indore | Aug 2018 – Feb 2019 — Worked on Android (Java) projects, handling 3 projects simultaneously.
- Code Expertise — Android App Development Training (30 days); SSi Institute — Android Development Internship (45 days).

## LANGUAGES

English, Hindi
